Witness [REDACTED] speaks only Spanish. Her statements were translated from Spanish to English by me. She told me her [REDACTED] had broken into her house by breaking a lock off of a door while she was in her garage. He then locked her out of the house. Her [REDACTED] eventually came into the garage. She called Witness [REDACTED] and asked him to call the police

Two deputies came and were talking to her [REDACTED] but she did not understand the conversation as it was in English; however, the conversation was back and forth between the deputies and her [REDACTED]. At a certain point, they began to fight. Her [REDACTED] was fighting back against the deputies and would not let them take control of him. She saw a taser was activated two or three times. A deputy struck her [REDACTED] approximately seven times, but she could not see where. She also said the original contact was with two deputies, but eventually there were four.

Additionally, she stated her [REDACTED] was tearing the house apart and removing the electrical outlet covers. She said he is not welcome in her house because he destroys things. The suspect did not listen to the commands given by the deputies and they began to roll around punching each other. Her [REDACTED] was fighting with the deputies and was actively resisting and would not allow them to handcuff him.

Witness [REDACTED]

Witness [REDACTED] said he called the Sheriff's Department because the suspect locked himself inside the house. He could see his mother and grandmother were nervous. He was eventually able to see the suspect removing electrical outlet covers inside the house. He said the suspect does not live at the home and is not supposed to be there. They have kicked the suspect out of the house, but he keeps coming back.

The deputies came and spoke to him. Deputies told him to stay where he was, but he walked over when he heard his mother yelling. He saw the deputies were battling with the suspect. I asked him what he meant by "battling" and if he heard the deputies giving commands to the suspect. He said he heard the deputies telling the suspect to put his hands behind his back. He believed the suspect was resisting them.

I asked if he heard the suspect saying anything back to the deputies. He said he heard the suspect swearing and added he was resisting. He said he did not see anything else and the interview was concluded.

The application of the taser was in close proximity to the suspect causing the darts to have a minimal spread. The minimal spread of the darts did not affect enough body mass to achieve neuromuscular incapacitation (NMI) and a three point contact procedure should have been applied.
